

Where I Want to Go

By: Anders Johansen

Michigan, Michigan is so far away
We pack up our things in our car
to drive from Georgia it takes more than a day.

Michigan, Michigan where summer flowers grow,
The sky is as blue as the ocean water.
When the sun is shining above the lake
it has a bright glow.

Michigan, Michigan with woodland animals all around,
Swimming in the water, gliding in the air
Squirrels jumping from tree to tree dropping acorns on the
ground.

Michigan, Michigan with ice cream so sweet
Mint chocolate chip, cookie dough and lots more
Sit down with your family to have a cold treat

Michigan, Michigan with stars like blazing lights.
Gathering with my family and friends,
While sitting by the fire on a warm cozy night.

Michigan, Michigan catching so many fish!
As my worm wiggles, the fish decide.
Oh to catch one would make my summer wish!

Michigan, Michigan my vacation is over
As I say my goodbyes I don't want to go
But I guess If I stayed here I would get sick of the snow.
